

The screenshot shows a user interface for controlling grading level metrics. At the top, there is a grey button labeled "Lexile level" with a green checkmark icon to its right. Below this, the word "Comprehension" is displayed. Under "Comprehension", there are two dropdown menus: "Select Student" and "Select Grade Level". At the bottom, there is a horizontal slider bar with a value of 0 on the left and 900 on the right. A purple circular handle is positioned on the slider, approximately one-third of the way from the left.

## Control Grading Level Metrics

### Description

Our Control Grading Level Metrics provides teachers with tools to measure their student's progress, whether it's Lexile, Reading Comprehension, Phonics, Fluency, Spelling, Reading Speed, Grammar, Vocabulary, etc. This system allows teachers to accurately track their students' learning capabilities.
