

Play as Ava

Description

Kids can choose to play as either Ava or Jbear in navigating our mini-games for story advancement. Ava has two power boosters to help her on the journey, a magical compass/clock, and a magical telescope. In each season, Ava unlocks more hidden capabilities with her power boosters. Below is a general overview of her power boosters.

- Magical Compass/Clock – Ava can use the Magical Compass/Clock to accomplish many heroic feats. Some of these capabilities include traversing many different stories, going back in time, and alchemy.
- Magical Telescope/Magnifying Glass: This is not an ordinary telescope. With this telescope/magnifying glass, Ava can see extremely long distances and use the magnifying glass to analyze the smallest, unseen detail in every environment.
